ussr cannot be indifferent to growing threat arising from
 deployment of over 500 more sophisticated american missiles.
 agmt must be reached at geneva now, before deadline for proposed

46 viktor tanin on new round of soviet-american talks in geneva,
 says this will be decisive round on which fate of agmt depends
 which obliges both sides to prove very responsible and constructive
 approach to negotiations and to create necessary conditions
 for favoring their success. washington does it best to poison
 political climate in world in order to foment unprecedented
 militarist hysteria, re maneuvers in various parts of world;
 if washington's position at geneva remains unilateral and
 nonconstructive and start installation of new american missiles
 in europe, then ussr will naturally have to adopt countermeasures in
 order to maintain parity of forces on regional scale, that is to
 say european, and also on global scale. Nobody should have any
 doubts on this point. (3 min: italian 1900 finnish 1530)
